**About American India Foundation**

The American India Foundation is committed to improving the lives of India’s underprivileged, with a special focus on women, children, and youth. AIF does this through high impact interventions in education, health, and livelihoods, because poverty is multidimensional. AIF’s unique value proposition is its broad engagement between communities, civil society, and expertise, thereby building a lasting bridge between the United States and India. With offices in New York and California, twelve chapters across the U.S., and India operations headquartered in Delhi NCR, AIF has impacted 6.7 million lives across 26 states of India. **About AIF Livelihoods Programs**

AIF works closely with the public and private sector to create inclusive and sustainable livelihoods for individuals, families, and communities across India with a long-term goal of equalizing the informal and formal sectors to provide equitable opportunities for all citizens.

**The Market Aligned Skills Training (MAST)** provides underprivileged youth with skills training and access to formal employment opportunities. It addresses the systemic imbalance between millions of the country’s disadvantaged youth lacking education and basic skills, and its growing industries in need of a skilled workforce. Working closely with employers, to develop market-aligned curricula that meets the need of the industry across the country, AIF provides a three-month vocations training and workplace readiness program to underprivileged young people to empower them with the knowledge and skills needed for employment and success. MAST promotes increased participation of women in the workforce through appropriate skilling and gender mainstreaming. It also promotes entrepreneurship culture amongst women thus making it aspirational to the population at the bottom of the pyramid.

**Ability-Based Livelihood Empowerment (ABLE)** trains persons with disabilities in fundamental and specialized skillsets and facilitates their entry into the job market through a robust advocacy platform for disability inclusion, promoting inclusive growth in India. With specialized curriculum development for the visually impaired, hearing impaired and orthopedically impaired, the program combines assistive technologies and workplace solutions with career counselling while building capacity of NGOs across India to ensure equal opportunities for all persons with disabilities.
Cumulatively, both these programs have benefitted 1,40,840 individuals (as on 31st March 2020) with 1,02,675 having gained employment across 23 States of India. From among those benefitted, 41% are women and 16,167 (11%) are persons with disabilities.

About The Project

AIF aims to influence the skilling and employment ecosystem for inclusion and empowerment of youth from the marginalized and economically weaker section of the society through a project over a period of 3 years in Haridwar (Uttarakhand), Etah and Sumerpur (Uttar Pradesh). This project endeavors to benefit at least 9,000 individuals across these three locations through interventions in Employment (placement linked training), Entrepreneurship and Entitlements with the ultimate objective of enhancing income.
